Remarks

The Sequence Listing has been amended to clarify reference to sequences in the specification. SEQ ID NO:14 has been amended to add an Xaa at position 9 and specify in the lines <220> to <223> that the Xaa at position 9 can be R, F, G, H, I, K, S, T, V or Y. These substitutions are described in the specification on page 6, line 18.

SEQ ID NO:119 uses Xaa in position 5. The corresponding explanation for this Xaa is described in lines <220> to <223> as required. Support for this feature is found on page 25, line 13 of the specification.
